Luxury Villas with Modern Design and High-Quality Features

These six villas feature a robust and modern design, with a foundation built on a reinforced concrete slab and walls made of reinforced concrete for superior strength.

The unidirectional structure is composed of pillars, flat beams, and reinforced concrete joists, providing stability and durability.

The double hollow brick enclosure, combined with an internal chamber and insulation panels, ensures optimal energy efficiency and comfort.

Inside, the homes are finished with smooth paint on walls and ceilings, offering a clean and
