In the exclusive Residencial, on plot number 30, stands Villa, a contemporary masterpiece that redefines the concept of beachfront living.

Its modern, elegant architecture, perfectly integrated into the plot, makes the most of every square metre to offer a visual spectacle: the Mediterranean as a permanent horizon.

Spread over three floors, this villa has been designed for those who value light, space and connection with their surroundings.

From the entrance on the top floor, a spacious hall sets the tone for the experience: a setting where the blue of the sea takes centre stage.
