This independent villa is located in a peaceful rural area between Nerja and Frigiliana, surrounded by nature and enjoying open views towards the Mediterranean Sea and the Axarquía landscape. The property sits on a plot of approximately 3,000 m², featuring spacious outdoor areas, several terraces, a private swimming pool and a pleasant barbecue area, ideal for enjoying the outdoor lifestyle throughout much of the year.

One of the highlights of the finca is its plantation of avocado and mango trees, with around 70 productive trees. In addition to adding privacy and Mediterranean character to the property, this agricultural area may provide an additional annual income.
