Fully renovated apartment with south-facing balcony and modern comfort Here we offer a bright and fully renovated apartment that combines modern standards with a well-thought-out floor plan and a lovely south-facing location. A home where light flows through the rooms and where every detail contributes to a pleasant and inviting atmosphere.

The apartment has a built area of approximately 88 square meters and a well-planned living area of approximately 80 square meters, distributed over three bedrooms and two bathrooms. The spacious bedrooms offer plenty of storage thanks to built-in wardrobes, while the floor plan provides a natural balance between social areas and private rooms.
