Villa in Finestrat

€3,500,000

7	6	638m²	1,300m²	N/A

We present you a new contemporary style villa project. The house is located in the highest part of the Sierra Cortina urbanization in Finestrat (Alicante). It is one of the most demanded and exclusive areas of the Costa Blanca, surrounded by a mountainous landscape, with panoramic views of the bay and only 5 minutes by car from Benidorm.

This project includes materials and installations with the highest performance and exclusively designed coatings. The feeling inside is spacious thanks to large windows and high ceilings. The free height of the floors is 2.80 m and there are double-height spaces in the hall and in the living room.
