A finca for sale in Cajiz, Malaga, with a total area of 37,714 m². This property is ideal for agriculture, especially focused on mango production, as it is home to 2,100 trees of the Keitt variety, recognized for its high productivity and demand in the market. In addition, there are 7 carob trees on the farm, which can be used both for their fruits and for their wood. As for water resources, the farm is equipped with a robust infrastructure: it has a cistern with a capacity of 500,000 liters of water, ensuring a constant supply. It also has 3 wells, two of which are drilled, which guarantees permanent access...(Ask for More Details!)
