FINCA LA CASTELLANA

This estate, located in the municipality of Villena, possesses a special charm that makes it one of the most picturesque spots in the area.

It is situated approximately 20 km from Villena and 7 km from Fontanares.

It features its own forest, fully planted with common pines and scrub. The estate is part of a private hunting reserve, where small game predominates (native partridge, rabbit, hare, thrush, and wood pigeon...), and where many wild boars are also found.

It has its own drinking water source, originating deep in the mountains and channeled to the estate;
