169m²

218m²

N/A

Located just off Benijofar High Street, these are two adjoining plots of land for sale. There is currently one structure with heavily reinforced footings spanning both plots. This structure is built up to the first floor and would need further reinforcement were the existing structure to be developed. It could equally be taken down to the footings and be turned into two separate dwellings. This is a unique opportunity in a superb central location close to all amenities. Ideal either for a developer or a buyer wanting to take on an exciting project. Fully legal with planning.
