Bodega Project in Pinoso

A project with countless possibilities in a AAA location.

On Pinoso's Promenade de la Constitución - a location that couldn't be better - you have the opportunity to take on a unique project. In this old bodega, which has already been completely stripped, you can create multiple residential units, apartments, or a combination with commercial use such as an office building, shop, showroom, or hospitality business.

You can also choose to demolish everything and build three new floors.

All paperwork regarding these options has been handled.
