Land a Plots in Pizarra

€1,800,000

0	0	N/A	3,634m²	N/A

Directly available urban land situated in a strategic location, specifically at the entrance to the town centre of Cerralba (Málaga), which gives it a particularly favourable position in terms of both accessibility and visibility.

In terms of infrastructure, the project to extend the A-357 motorway is of particular significance, it has already been approved and work is currently underway. This development will not only significantly improve the connection to Málaga city centre (reducing journey time to approximately 10 minutes), but also includes a direct slip road providing immediate access to the area where the plot is situated.
