In one of the most distinguished residential enclaves of Estepona, next to its old town and in the heart of the Costa del Sol, this project is born: a magnificent building of forty-eight homes where contemporary architecture merges with the horizon. A project conceived under four defining principles: accessibility, sustainability, contemporary design, and functionality.

The development offers one, two, and three-bedroom homes, with two bathrooms -one en suite in the master bedroom- and terraces open to wonderful panoramic views of Sierra Bermeja and the Mediterranean Sea. Each home is delivered fully equipped, including a furnished kitchen with induction hob, oven, extractor fan, and washing machine; centralized air conditioning, heating, and
