For those seeking absolute privacy, untouched nature, and a truly exceptional location, we present this unique rustic estate situated in the Pinos area (Benissa), in a protected environment that ensures the conservation of the landscape and the exclusivity of the site.

The property boasts over 123,000 m² of agricultural land, mostly planted with almond trees, and offers stunning panoramic views of the Sierra de Bernia, the valley, the Mediterranean Sea, and the Calpe skyline.

The estate includes two registered buildings, both in need of complete renovation: a main house in traditional style, over 100 years old, spread across two floors with a registered built area of 400 m².
