Development plot with building in central Fuengirola - Avenida Condes de San Isidro

For sale: a 150 m² urban plot on Avenida Condes de San Isidro, one of the main commercial streets in the centre of Fuengirola. The plot currently holds an old building, intended to be demolished for a new development.

According to the available planning information, the permitted building envelope is ground floor plus two upper floors and a set-back penthouse, with an approximate buildable area of 570 m². Because the plot is under 200 m², planning rules allow 100% plot coverage on every floor except the penthouse. Basement levels may also be included.
