Manor house in the city center.

Divided into three floors, with a commercial premise of 80 square meters at street level, including a bathroom on that floor.

We access the residence through an independent door from the street, leading to a completely private inner courtyard, which gives us access to two independent homes on the same floor, a living-dining room with a fireplace and air conditioning, a spacious kitchen with ample storage and direct access to another 80 square meter patio with storage room, two bedrooms, and a full bathroom.
