This project is an exclusive development. It consists of 18 contemporary luxury villas, designed with clean architectural lines, generous interior spaces, and a lot of natural light. Within the community, residents enjoy communal areas, walking and cycling paths, and a peaceful atmosphere. The project is located just minutes from the city centre, offering shops, restaurants, medical facilities, sports complexes and cultural attractions. With daily conveniences and leisure options close by, the location is both practical and enjoyable.
The villas are designed to connect indoor and outdoor spaces through open layouts, floor-to-ceiling windows and outdoor areas tailored to the Mediterranean climate.
