Villa in Almunecar

€695,000

3	2	177m²	426m²	N/A

In the heart of Almuñécar, just a few meters from the emblematic Playa de San Cristóbal, this charming detached single-family house offers a rare opportunity thanks to its privileged location and its pleasant combination of Andalusian style, privacy, and outdoor spaces.

The property welcomes visitors with a small Cordoban-inspired patio featuring a beautiful floor decorated with a star made of white and grey stones. This corner, surrounded by vegetation, includes banana trees that produce fruit in winter, coffee plants, and other ornamental species that add freshness and character. In this area, there is also a practical storage room for garden tools and another room used as a laundry space.
