Some homes are about what's inside. This one is about how you live.
Beautifully renovated with a striking contemporary finish, this exceptional duplex penthouse in Mijas Costa combines the proportions of a much larger home with an incredible amount of private outdoor space.
Inside, 155m² of beautifully finished interiors have been completely transformed. Two generous bedrooms and three bathrooms are complemented by a bright open plan living space and statement kitchen where marble detailing, bespoke lighting and clean architectural lines give the home a distinctly modern feel.
