Town House in Fuengirola

€1,100,000

5	3	259m²	108m²	N/A

We present this beautiful home, located in the heart of Fuengirola, a gem lovingly restored with respect for its historic origins. The property retains original features that add character and exclusivity, such as its charming Sevillian patio and carefully restored railings that are over 150 years old, as well as a carved wooden coffered ceiling above the patio, designed especially for this home.

Located on a semi-pedestrian street just 200 meters from the beach, this house combines the tranquility needed to enjoy its surroundings without sacrificing proximity to the city center's entertainment district, bars, and shops. The construction quality is luxurious, visible at every turn.
